Makeover, redesign, website redesign

Your web site needs a more current or more professional look? Offer him(her) a session of relooking or reshape him(it) completely!□□□□□□□□□□□□

Of the simple change of appearance (by keeping(guarding) possibly the main lines of your current site) for the complete revision, we take care with giving a new youth to your Web site.

What are the differences between an update, a relooking and a revision of web site? There are no official definitions, but we propose this:

*** Update: the general appearance of the web site does not change, only texts and images of illustration are modified. We can possibly add pages□ on the model of the existing pages.**

*** Relooking or new look: the general appearance (the dressing) of the Web site is modified, but texts and images of illustration remain generally unchanged.**

*** Revision or reorganization: The website is completely recreated. Pages are added or removed. Some elements (texts and pictures) from the old version can be reused.**
